Summary

Software engineer and co-founder of a tech startup, where I spearheaded backend development using Python and JavaScript to build scalable, resilient systems. Proficient in deploying web applications on Hetzner and streamlining workflows with CI/CD pipelines via GitHub Actions. Hands-on experience with DynamoDB for data management and AWS Bedrock for advanced integrations. Passionate about generative AI, constantly exploring innovative tools to drive cutting-edge development.

Skills

Programming Languages: Python , JavaScript, SQL, C

Technologies: FastAPI, PostgreSQL, AWS, Next.js, DynamoDB, Amazon Bedrock, GitHub Actions, Docker

Competitive Programming: Solved 230+ LeetCode problems leetcode.com/u/PRITHVI999

Experience

Associate II - Data Science, UST – Trivandrum, Kerala Aug 2025 – Present

- Built an Agentic Customer Satisfaction Platform for the UST internal team (20+ members), which creates insights from the feedback and creates actionable items for the managers to follow.
- The agent searches the web to find additional supportive documents for managers to follow and send to their team members. Reducing the manager overhead by 40%.
- Technologies used: FastAPI, React.js, Langchain, Bedrock, DynamoDB.

Co-founder & Backend Engineer, Adrovel – Trivandrum, Kerala Dec 2024 – Jan 2025

- Co-founded Adrovel with an ambitious startup vision to achieve \$10k MRR (Monthly Recurring Revenue).
- Engineered and managed 3 apps: An Appointment Scheduling app, a Debt Tracking app, and an X Media Management Platform.
- Designed and implemented CI/CD pipelines, streaming app deployments, and improved release efficiency by 30%.

Projects

Bitsit bitsit.in

- Developed a coupon reselling platform.
- Created KYC for sellers and escrow account for dispute management.
- Tools Used: Claude Code.

InnerScript (AI Journaling Tool) github.com/Adrovel/InnerScript

- Developed a WYSIWYG editor for writing journals.
- Used AI to extract mood, character, and ideologies of the journals.
- Tools Used: Next.js, Cursor.

Education

TKM College of Engineering – BTech in Electrical and Electronics Engineering Aug 2021 – April 2025
CGPA: 8.35

Relevant Coursework: Object Oriented Programming, Computer Networks, Operating Systems, Computer Graphics, C Programming, Microprocessors and Micro-controllers.

Hobbies

Reading books, Boxing
